

# Ski Club Arlberg Week

**05th February 2022 until 12th February 2022**

## Ski Club Arlberg Week 2022

Members from all over the world have been gathering for the famous SCA Week on the Arlberg for over 20 years. They are all driven by the same thing; they share a passion for skiing and are proud to be members of the most traditional ski club. The Ski Club Arlberg offers its members numerous different activities and a comprehensive entertainment programme during the SCA Week. The crowning finale of this week: the traditional SCA Club Championships whereby members can put their technical racing ability to the test. The Ski Club Arlberg has always succeeded in creating special moments for its members. Submerge yourself in the unique nature and mountains of the Arlberg and celebrate with us during the SCA Week 2022. Please note that this programm is available exclusively for members.

Registration is binding. Participation in an event can be cancelled up to 5 days in advance, free-of-charge. In the event of a failure to cancel within this time, the full participation fee will be charged.

# Ski Club Arlberg

## The legend of the Ski Club Arlberg

Founded in 1901, the Ski Club Arlberg is not only one of the oldest Ski Clubs in Austria, it is also one of the biggest and most significant in the world with over 8.500 members from 60 nations.

## Maintaining tradition and shaping the future

Thanks to the numerous racing successes by SCA members such as Hannes Schneider, Trude Joachum-Beiser, Othmar Schneider, Egon Zimmermann, Karl Schranz, Patrick Ortlib and Mario Matt, the Ski Club Arlberg has become famous far beyond the borders of Austria and is very highly regarded in the sporting world.

By undertaking intensive and professional youth work, the club is actively seeking to build on these racing successes and to encourage the young members of the Ski Club Arlberg to develop an interest in snow sports.

It is all thanks this fascination with skiing sports and the efforts of club members to preserve the club's traditions and existence that the Ski Club Arlberg is still growing, over 100 years after it was founded.
